

FITNESS HOMEWORK:

Relaxation

Benefits of Relaxation

Relaxation is perhaps the single most important key to health and well-being. It is the antidote to stress which is known to contribute to the development of disease. When we relax, our body has an opportunity to unwind. The benefits of relaxation have been well researched and some of these are summarized below.

Relation

- gives the heart a rest by slowing the heart rate
- reduces blood pressure
- slows the rate of breathing, which reduces the need for oxygen
- increases blood flow to the muscles
- decreases muscle tension

As a result of relaxation, many people experience -

- more energy
- better sleep
- enhanced immunity
- increased concentration
- better problem-solving abilities
- greater efficiency
- smoother emotions — less anger, crying, anxiety, frustration
- less headaches and pain

We encourage you to make relaxation a priority!

A healthy lifestyle must be reinforced at home as well as at school. That is why it is so important to start positive exercise habits at a young age and that is the main reason we have fitness homework here at our school. Most fitness homework assignments will be brief but they will be collected and graded every time. All fitness homework must be signed by a parent. Hopefully these fitness home works will be motivating for the entire family and will help every student.

Assignment - Physical - 30 min. Relaxation Activity

What did you do (explain): _____

Parent Signature: _____

1. Which fact from above stood out to you? And why?
